

Dear Hydrographic Society of America-Houston Chapter Board,

I just wanted to say thank you one more time for the scholarship you all awarded me. It is going to make a huge impact on this next semester's financial costs that I am going to need to pay for in the next month. I had a great time at the Christmas Party and was excited to meet each and every person I had the pleasure to talk to this past weekend.

I hope that I get the chance to attend a few THSOA-HC meetings in the upcoming few years so that I can continue to stay connected to the profession and group of people I was around this past weekend. I plan on taking full hours every semester for the next 5 years to complete both my Bachelors and Masters here at A&M Corpus Christi. Along with schooling I am hoping to get internships and/or work that have to do with possible future career opportunities.

Again thank you very much for all that you all are doing to help college students succeed in their schooling.

Thanks

Alexander Fontes
